3. Identifying the sources, foundations and pillars of legislation
4. Acquiring self-development skills that enable students to communicate and share knowledge with others
5. Qualifying and preparing students capable of working in the government and mixed sectors and Iraqi and Arab companies
6. Providing the student with intellectual and practical skills that will help him refine his academic and professional life

7. Work to expand the student's scientific concepts and link the cognitive information he acquires with its application in practical life to enhance the importance of the subject in his thought.

Course outcomes and teaching, learning and evaluation methods

Cognitive objectives

- 1- Enabling students to study the basic rules of financial legislation.
- 2- Enabling students to apply laws in the practical aspect
- 3- Introducing students to the most important sources of financial law and Islamic banking.

Teaching and learning methods

Standard method (lectures)

- Lectures using aids

Evaluation methods

Evaluation by asking direct questions, discussions, and daily examinations

- Emotional and value goals

- 1- Students grew up to love studying banking supervision as it is one of the basic components of working in banks and financial transactions in companies.
- 2- Raising the level of awareness among students about the reality of banking supervision and the extent to which its rules apply to practical reality.

- 3- The student's knowledge of the importance of the regulatory aspect in banking work.

Teaching and learning methods

Providing psychological and scientific motivations to achieve emotional goals

Evaluation methods

Using traditional and modern methods to try to understand students' ideas through emotional and value goals in the field of specialization.

- General and qualifying transferable skills (other skills related to employability and personal development)

- 1- The ability to adopt the doctrine that has the strongest evidence in permitting insurance or not
- 2- Acquiring knowledge of the nature of traditional banks and Islamic banks
- 3- Acquire knowledge of modern systems of dialogue and communication

Infrastructure

1. The required textbooks. Lectures prepared by the subject teacher. They were chosen according to the prescribed vocabulary in a way that suits the department's specialization and does not involve students with laws far from Islamic banking.

2. Main references (sources): The Commercial Law of 1984, the Companies Law of 1997, and the Islamic Banking Law of 2015.

1) Recommended books and references (scientific journals, reports,.....) Works by Professor Dr. Allama Ali Al-Qardaghi

3. Electronic references, Internet sites,.....the Al Rajhi Islamic Foundation website

Course development plan

Striving to add other vocabulary to the subject that helps the student in the practical field, develops knowledge, and keeps pace with the events of the international community.

1. Program Vision

The vision of the department is to work on developing a strategy that deals with:

First: Teaching students Islamic sciences and focusing on the science of jurisprudence and its principles with attention to mental, legal and educational sciences.

Second: Working to know the jurisprudence of disagreement and its impact on spreading the culture of tolerance, containing the violator and recognizing rights and duties in accordance with the general legal controls, in light of a charged global atmosphere that prevents listening to the rich and diverse ideas that others are supposed to understand, without the need to adopt them.

Third: Showing the values of moderation and moderation in dealing with others in accordance with the controls set forth by Islamic Sharia and being the standard through which it can be dealt with.

2. Program Mission

1- Showing facilitation in Sharia rulings through the study of jurisprudence and its principles, through which the flexibility and originality of Islamic legislation appear.

2- Qualifying cadres specialized in teaching subjects related to Sharia sciences (jurisprudence and its principles).

3- Seeking to communicate with other scientific and cultural communities by holding conferences, seminars and scientific workshops in a contemporary manner electronically or in person.

4 - Realizing the greatness of this religion and the fact that it is valid for every time and place and that it came to achieve the interests of people within the purposes of the general Sharia.

5- Explaining the role of the Department of Jurisprudence and its principles in finding solutions to the problems experienced by society.

6- Linking the present of the Islamic Ummah with its past by glorifying the legal texts.

3. Program Objectives

- 1- Calling for tolerance, establishing the values of difference and respect for others.
- 2- Spreading the culture of peaceful and societal coexistence, establishing rules for dialogue, and avoiding everything that would harm the national unity of society.
- 3- Consolidating the critical mentality of dialogue, overcoming the closed static mentality, and addressing the causes of difference.
- 4- Understanding contemporary calamities and clarifying their jurisprudential rulings in accordance with Sharia controls.
- 5- Emphasizing the correct understanding of religion in the light of a moderate approach, and staying away from intolerant and aggressive sayings, ideas and attitudes.
- 6- Revealing the positive impact of the correct understanding of Islamic jurisprudence and its impact on sustainable development.
- 7- Providing the community with scientific cadres specialized in the field of boys.
- 8- Manifesting the rational, moral, humanitarian, aesthetic and moral dimensions of jurisprudence and its principles.
- 9- Education on the observance of freedoms and human rights, and everything that enhances human dignity as one of the foundations of Sharia and its provisions.
- 10 - Study the difference of jurists and explain its impact on pushing fanaticism and containing the violator.
- 11- Opening channels of scientific cooperation with the corresponding scientific institutions at the local and international levels.

Director of the Quality Assurance and University Performance Department:

Date:

Signature:

Approval of the Dean

Course description form

Course description

1. Educational institution, College of Islamic Sciences / Tikrit University
2. Scientific Department/Center, Department of Islamic Banking and Financial Sciences
3. Article and stage Sharia supervision / fourth stage
4. Semester/year courses (first course)
5. Course name/code 30
6. The date this description was prepared is 2023/2024

. Course objectives

1. The importance of financial legislation and clarifying the concepts.
2. Teach students the importance of this subject scientifically and practically and its treatment of issues
3. Identifying the sources, foundations and pillars of legislation
4. Acquiring self-development skills that enable students to communicate and share knowledge with others
5. Qualifying and preparing students capable of working in the government and mixed sectors and Iraqi and Arab companies
6. Providing the student with intellectual and practical skills that will help him refine his academic and professional life

7. Work to expand the student's scientific concepts and link the cognitive information he acquires with its application in practical life to enhance the importance of the subject in his thought.

Course outcomes and teaching, learning and evaluation methods

Cognitive objectives

- 1- Enabling students to study the basic rules of financial legislation.
- 2- Enabling students to apply laws in the practical aspect
- 3- Introducing students to the most important sources of financial law and Islamic banking.

Teaching and learning methods

Standard method (lectures)

- Lectures using aids

Evaluation methods

Evaluation by asking direct questions, discussions, and daily examinations

- Emotional and value goals

- 1- Students grew up to love studying banking supervision as it is one of the basic components of working in banks and financial transactions in companies.
- 2- Raising the level of awareness among students about the reality of banking supervision and the extent to which its rules apply to practical reality.

- 3- The student's knowledge of the importance of the regulatory aspect in banking work.

Teaching and learning methods

Providing psychological and scientific motivations to achieve emotional goals

Evaluation methods

Using traditional and modern methods to try to understand students' ideas through emotional and value goals in the field of specialization.

- General and qualifying transferable skills (other skills related to employability and personal development)

- 1- The ability to adopt the doctrine that has the strongest evidence in permitting insurance or not
- 2- Acquiring knowledge of the nature of traditional banks and Islamic banks
- 3- Acquire knowledge of modern systems of dialogue and communication

Infrastructure

1. The required textbooks. Lectures prepared by the subject teacher. They were chosen according to the prescribed vocabulary in a way that suits the department's specialization and does not involve students with laws far from Islamic banking.

2.Main references (sources): The Commercial Law of 1984, the Companies Law of 1997, and the Islamic Banking Law of 2015.

1) Recommended books and references (scientific journals, reports,.....) Works by Professor Dr. Allama Ali Al-Qardaghi

3.Electronic references, Internet sites,.....the Al Rajhi Islamic Foundation website

Course development plan

Striving to add other vocabulary to the subject that helps the student in the practical field, develops knowledge, and keeps pace with the events of the international community.

Course Description

1. Course Name Computer First Stage
2. Course Code COM1125
3. Semester / Year First Semester 2024-2025
4. Date of preparation of this description 10/20/2024
5. Available forms of attendance Daily attendance
6. Number of study hours (total) / Number of units (total) 30/2
7. Name of the course administrator (if more than one name is mentioned)
Ali Khalil Salih Email : ali.khalil.salih@tu.edu.iq
8. Course Objectives
Objectives of the study material <ul style="list-style-type: none"> - Enable the user has the necessary ability to deal with operating systems on the computer through (interactive education, dealing with windows, saving programs, and writing notes) in a way that ensures the implementation of applications and programs and the acquisition of computer skills. - help the student is able to use ready-made applications and software and acquire computer skills. - Acquiring self-development skills that enable students to communicate and share knowledge with others
9. Course strategy
<ul style="list-style-type: none"> - Attending lectures and theoretical exams - Performing practical assignments inside and outside the laboratories - Student participation in the practical aspect through interactive education - Preparing reports with specific objectives to gain experience and learning

10.Course Structure					
Weeks	Hours	Unit name or Subject	Required learning outcomes	Teaching method	Evaluation method
Week1	2	Computer concept, computer life cycle stages		Lecture	Oral Questions
Week2	2	Evolution of computer generations		Lecture	Student Participation
Week3	2	Advantages of computers and areas of use		Presentation	Oral Questions
Week4	2	Classification of computers in terms of purpose, size and data type		Lecture	Oral Questions
Week5	2	Computer components		Presentation	Daily and Monthly Exams
Week6	2	Hardware parts of the computer		Presentation	Oral Questions
Week7	2	Software entities		Lecture	Student Practical Application
Week8	2	Computer security concept and software licenses		Lecture	Oral Questions
Week9	2	Forms of violations, computer security, computer privacy		Lecture	Daily and Monthly Exams
Week10	2	To protect against hacking, computer damage to health		Lecture	Oral Questions
Week11	2	Definition of the operating system, functions, goals, classification		Presentation	Oral Questions

Week12	2	Installation requirements and new features and desktop components		Interactive Teaching	Oral Questions
Week13	2	Start menu, taskbar, notification area		Interactive Teaching	Student Participation
Week14	2	Icons, folders, files		Interactive Teaching	Oral Questions
Week15	2	Windows operations, control panel, common settings on the computer		Interactive Teaching	Oral Questions

11.Course Evaluation

Distribution of the grade out of 100 according to the tasks assigned to the student such as daily preparation, daily, oral, monthly and written exams, reports, etc.

12.Learning and Teaching Resources

Required prescribed books (methodology if any)	Computer Basics and Office Applications - Part One Main References (Resources) 1- Dr. Ziad Muhammad Abboud 2- Dr. Ghassan Hamid Abdul Majeed 3- Dr. Amir Hussein Murad 4- Bilal Kamal Ahmed
Main References (Sources)	
Recommended supporting books and references (scientific journals, reports, etc.)	Computer books and educational reports Various articles and reports in the field of computers Specialized websites
Electronic references, Internet sites	Digital libraries and blogs Lessons and educational courses on the Internet

1. Program Vision

The vision of the department is to work on developing a strategy that deals with:

First: Teaching students Islamic sciences and focusing on the science of jurisprudence and its principles with attention to mental, legal and educational sciences.

Second: Working to know the jurisprudence of disagreement and its impact on spreading the culture of tolerance, containing the violator and recognizing rights and duties in accordance with the general legal controls, in light of a charged global atmosphere that prevents listening to the rich and diverse ideas that others are supposed to understand, without the need to adopt them.

Third: Showing the values of moderation and moderation in dealing with others in accordance with the controls set forth by Islamic Sharia and being the standard through which it can be dealt with.

2. Program Mission

- 1- Showing facilitation in Sharia rulings through the study of jurisprudence and its principles, through which the flexibility and originality of Islamic legislation appear.
- 2- Qualifying cadres specialized in teaching subjects related to Sharia sciences (jurisprudence and its principles).
- 3- Seeking to communicate with other scientific and cultural communities by holding conferences, seminars and scientific workshops in a contemporary manner electronically or in person.
- 4 - Realizing the greatness of this religion and the fact that it is valid for every time and place and that it came to achieve the interests of people within the purposes of the general Sharia.
- 5- Explaining the role of the Department of Jurisprudence and its principles in finding solutions to the problems experienced by society.
- 6- Linking the present of the Islamic Ummah with its past by glorifying the legal texts.

3. Program Objectives

- 1- Calling for tolerance, establishing the values of difference and respect for others.
- 2- Spreading the culture of peaceful and societal coexistence, establishing rules for dialogue, and avoiding everything that would harm the national unity of society.
- 3- Consolidating the critical mentality of dialogue, overcoming the closed static mentality, and addressing the causes of difference.
- 4- Understanding contemporary calamities and clarifying their jurisprudential rulings in accordance with Sharia controls.
- 5- Emphasizing the correct understanding of religion in the light of a moderate approach, and staying away from intolerant and aggressive sayings, ideas and attitudes.
- 6- Revealing the positive impact of the correct understanding of Islamic jurisprudence and its impact on sustainable development.
- 7- Providing the community with scientific cadres specialized in the field of boys.
- 8- Manifesting the rational, moral, humanitarian, aesthetic and moral dimensions of jurisprudence and its principles.
- 9- Education on the observance of freedoms and human rights, and everything that enhances human dignity as one of the foundations of Sharia and its provisions.
- 10 - Study the difference of jurists and explain its impact on pushing fanaticism and containing the violator.
- 11- Opening channels of scientific cooperation with the corresponding scientific institutions at the local and international levels.

4. Program Accreditation

Does the program have program accreditation? and from which side?

5. Other external influences

Is there a sponsor for the program ?

6. Program Structure

Reviews	Percentage	Unit of study	Number of	Program

7. Program Description				
Credit Hours		Course Name	Course or Course Code	Year/Level
practical	theoretical			

8. Expected Learning Outcomes of the Program	
Knowledge	
Learning Outcomes Statement 1	1- Appreciating the efforts of scientists in the service of this science. 2- Educating students about the reality of disagreement in the branches of jurisprudence based on the difference in fundamentalist recitation.

	3- Keeping students away from sectarian fanaticism. 4- Motivating students to harness modern technology to serve this science.
--	---

Skills

Learning Outcomes Statement 2	1- Developing students' skill in knowing the evidence of Sharia and its divisions.
Learning Outcomes Statement 3	2- Strengthening students' skill in deriving legal rulings.

Values

Learning Outcomes Statement 4	1- Appreciating the efforts of scientists in the service of this science.
Learning Outcomes Statement 5	2- Educating students about the reality of legislative evidence and original and ancillary sources.

9. Teaching and learning strategies

- 1- Printed lectures in the form of PowerPoint and PDF.
- 2- Interactive lectures via Meet.
- 3- Recorded video lectures that are downloaded to electronic classes.

10. Evaluation methods

- 1- Direct questions during lectures.
- 2- Practical application by assigning daily duties

11. Faculty

Faculty Members

Preparation of the teaching staff		Requirements/Skills (if applicable)	Specialization		Academic Rank
lecturer	angel		special	year	

Professional Development

Mentoring new faculty members

Briefly describes the process used to mentor new, visiting, full-time, and part-time faculty at the institution and department level.

Professional development of faculty members

Briefly describe the academic and professional development plan and arrangements for faculty such as teaching and learning strategies, assessment of learning outcomes, professional development etc.

12. Acceptance Criterion

(Setting regulations related to enrollment in the college or institute, whether central admission or others)

13. The most important sources of information about the program

Remember briefly.

14. Program Development Plan

Date:

Signature:

Approval of the Dean

Course description form

Course description

1. Educational institution, College of Islamic Sciences / Tikrit University
2. Scientific Department/Center, Department of Islamic Banking and Financial Sciences
3. Article and stage Sharia supervision / fourth stage
4. Semester/year courses (first course)
5. Course name/code 30
6. The date this description was prepared is 2023/2024

. Course objectives

1. The importance of financial legislation and clarifying the concepts.
2. Teach students the importance of this subject scientifically and practically and its treatment of issues
3. Identifying the sources, foundations and pillars of legislation
4. Acquiring self-development skills that enable students to communicate and share knowledge with others
5. Qualifying and preparing students capable of working in the government and mixed sectors and Iraqi and Arab companies
6. Providing the student with intellectual and practical skills that will help him refine his academic and professional life

7. Work to expand the student's scientific concepts and link the cognitive information he acquires with its application in practical life to enhance the importance of the subject in his thought.

Course outcomes and teaching, learning and evaluation methods

Cognitive objectives

- 1- Enabling students to study the basic rules of financial legislation.
- 2- Enabling students to apply laws in the practical aspect
- 3- Introducing students to the most important sources of financial law and Islamic banking.

Teaching and learning methods

Standard method (lectures)

- Lectures using aids

Evaluation methods

Evaluation by asking direct questions, discussions, and daily examinations

- Emotional and value goals

- 1- Students grew up to love studying banking supervision as it is one of the basic components of working in banks and financial transactions in companies.
- 2- Raising the level of awareness among students about the reality of banking supervision and the extent to which its rules apply to practical reality.

- 3- The student's knowledge of the importance of the regulatory aspect in banking work.

Teaching and learning methods

Providing psychological and scientific motivations to achieve emotional goals

Evaluation methods

Using traditional and modern methods to try to understand students' ideas through emotional and value goals in the field of specialization.

- General and qualifying transferable skills (other skills related to employability and personal development)

- 1- The ability to adopt the doctrine that has the strongest evidence in permitting insurance or not
- 2- Acquiring knowledge of the nature of traditional banks and Islamic banks
- 3- Acquire knowledge of modern systems of dialogue and communication

Infrastructure

1. The required textbooks. Lectures prepared by the subject teacher. They were chosen according to the prescribed vocabulary in a way that suits the department's specialization and does not involve students with laws far from Islamic banking.

2.Main references (sources): The Commercial Law of 1984, the Companies Law of 1997, and the Islamic Banking Law of 2015.

1) Recommended books and references (scientific journals, reports,.....) Works by Professor Dr. Allama Ali Al-Qardaghi

3.Electronic references, Internet sites,.....the Al Rajhi Islamic Foundation website

Course development plan

Striving to add other vocabulary to the subject that helps the student in the practical field, develops knowledge, and keeps pace with the events of the international community.
